

**2007 Six Degrees Tasting Notes:**

Wine: 2007 Six Degrees

Date Harvested: October 11, 2007

Production: 380 Cases

Brix: 25.7

pH: 3.65

2007 was all about balance. The vintage enjoyed a beautiful, temperate spring that allowed the fruit to set perfectly on the vine. This was followed by a gorgeous summer that stretched all the way through September with only one heat spike. The resulting wine is perhaps the best we've ever made.

The first thing you'll notice on this wine is the intense, deep purple hue it shows in the glass. There's only one word for that: Powerful. The fruit and oak combine harmoniously on the palate, offering the silky textures and flavors that have become the standard that defines Six Degrees.
